New Freak of Fashion Altogether Charming When Carried Out With Due Consideration.

The touch of velvet near the face, matching the color of the eyes, has long been popular with the women who study their own good points, and this has been easy to manage in these days of quaint little bows and pipulas.

Of late, however, the women of the smart set have taken to wearing flow-

ers which carry out the color, too.

There are panales that are for the brown ered girl, forgerme-nuis for the bus eyes and orchida for the maid with hazel eyes.

The girl with gray eyes is the only one who has any trouble, for all she can find to match her eyes is the hum-

can find to match her eyes is the hum-ble dusty miller leaf.

Sometimes she fancies her eyes, however, are "gray blue" or "green gray," so she varies her color scheme with orchids, mignonette or a dull blue blossom. If she is quite con-vinced that her eyes are really "matchless" she contents herself with the feeling of superjority arising there. "matchless" she contents berself with the feeling of superiority arising there-from and lets the jewels of her face sparkle unrivaled or wears the modest violet, which would never presume to resemble the eyes above them. Popular Trimming.
Lace is one of the most popular trimmings on the new spring styles, being used on hats, frocks for any time of the day and even the suit of cloth, and of all the laces Irish is per haps the favorite.

Irish lace coped from Venetian designs is a new factor in the fashions, and has been widely taken up for the collar and cuff sets for either blouse or coat.

FLOWERS TO MATCH THE EYES | ELASTIC SIDE GUSSETS USED

Elastic side gussets are introduced on corsets of very long hip cut, as shown in our illustration, and stout figures especially can be assured of added alimness in those shapes, which particularly give flat hips.

made his appearance in a Broadway store last week. He carried an enormous bandbox which contained an enormous band on which the man wanted what he considered an enormous amount of money refunded. The men was pretty mad and while looking for some one who had the authority to negotiate the transaction he talked loud enough for everybody to hear. "My wife bought this hat," he said. "She doesn't need it. She has already bought three hats this spring. She paid \$35 for this one. She has never worn it. It just came home last night I can't afford to throw all that momey away and I want you to take the hat back. She wouldn't bring it down, so I undertook the jub myself."

"By the side of that man Napoleon was a cringing coward," said the young woman who had made the sails. "Imagine his floureing into a Parisian millinery shop with a hat that he didn't want Josephine to huy. He couldn't have done it. Very few men can. "The woman you sent to me for a lob in the musical comedy seems en-tirely inexperienced. Do you know of her ever having done leading business before?"

"In one way. I knew she always led her husband a dance."

A Drop of Blood

Or a little water from the human system when thoroughly tested by the chief chemist at Dr. Pierce's lavalids' Hotel, Buffalo, N. Y., tells the story of impoverished blood—nervous exhaustion or some kidney trouble. Such examinations are made without cost and is only a small part of the work of the staff of physicians and surgeons under the direction of Dr. R. V. Pierce giving the best medical advice possible without cost to those who wish to write and make a full-statement of symptoms. An imitation of natures method of restoring waste of tissue and impoverishment of the blood and nervous force is used when you take an alterative and glyceric extract of roots, without the use of sloohol, such as
